CONTENTS Volume 46 1996

Volume 46 No. 1

Original research papers

Stimulation of *in vitro* shoot proliferation from nodal explants of cassava by thidiazuron, benzyladenine and gibberellic acid 1–7
Basdeo Bhagwat, Luiz G.E. Vieira, Larry R. Erickson

Paclitaxel production in suspension cell cultures of *Faxus* 9–16
R.E.B. Ketchum, D.M. Gibson

Production of somatic embryos and plantlets from root cells of the Greater Yam 17–26
C.T. Twyford, S.H. Mantell

Changes in peroxidases in the suspension culture of *Rubus fruticosus* during growth 27–33
Angelo Luiz Cortelazzo, Marie-France Marais, Jean-Paul Joseleau

Oil palm (*Elaeis guineensis*) protoplasts: isolation, culture and microcallus formation 35–41
Ravigadevi Sambanthamurthi, Siti Hasnah Parman, Mohd. Roslan Md. Noor

Somaclonal variation as a tool to develop pest resistant plants of *Torenia fournieri* 'Compacta Blue' 43–50
M.Z. Hadi, M.P. Bridgen

***In vitro* production and propagation of *Fragaria vesca x Potentilla fruticosa* hybrids** 51–58
Tara Silva, J.K. Jones

***Taxus* sp. cell, tissue and organ cultures as alternative sources for taxoids production: a literature survey** 59–76
Mondher Jaziri, Abdesslam Zhiri, Yan-Wen Guo, Jean-Pierre Dupont, Koichiro Shimomura, Hiroki Hamada, Maurice Vanhaelen, Jacques Homès

Research notes

Micropropagation of juvenile and adult Annona squamosa 77–79
E.E.P. Lemos, J. Blake

Increase of embryogenic callus formation in cucumber by initial culture on high concentration of 2,4-dichlorophenoxyacetic acid 81–83
Anne-Marie Kuijpers, Han Bouman, Geert-Jan de Klerk

Somatic embryogenesis of *Agave victoria-reginae* Moore 85–87
Benjamin Rodríguez-Garay, Antonia Gutiérrez-Mora, Beatríz Acosta-Dueñas

Erratum

Factors affecting *in vitro* shoot proliferation and *ex vitro* establishment of mangosteen 89
M.N. Normah, A.B. Nor-Azza, R. Aliudin

Volume 46 No. 2

Original research papers

Frozen storage stimulates the formation of embryo-like structures and elongating shoots in explants from mature *Larix decidua* and *L. x eurolepsis* trees 91–101
J.M. Bonga

***Agrobacterium rhizogenes*-mediated transformation of *Rubia peregrina* L.: *in vitro* accumulation of anthraquinones** 103–108
A.H. Lodhi, B.V. Charlwood

Hormone independent root organ cultures of rye *(Secale cereale)* 109–115
P.J. Whitney

Soluble iron is lost from MS medium pre-exposed to light but growth of potato plantlets is not inhibited 117–121
F. Papathanasiou, C. Selby, B.M.R. Harvey

Plant regeneration in weeping lovegrass, *(Eragrostis curvula)* through inflorescence culture 123–130
V. Echenique, P. Polci, L. Mroginski

Elicitation of volatile compounds in photomixotrophic cell culture of *Petroselinum crispum* 131–136
G. Reil, R.G. Berger

Differential expression of antisense in regenerated tobacco plants transformed with an antisense version of a tomato ACC oxidase gene 137–141
J.W. Einset

***Agrobacterium*-mediated transformation and regeneration of guayule** 143–150
Zhiqiang Pan, Jingkun Ho, Qin Feng, Dao-Shun Huang, R.A. Backhaus

***In vitro* cloning and micropropagation of *Lavandula Stoechas* from field-grown plants** 151–155
J. Nobre

Research notes

High-frequency somatic embryogenesis from small suspension-cultured clusters of cells of an interspecific hybrid of *Oryza* 157–159
K. Ozawa, Ding-Hou Ling, A. Komamine

Shoot regeneration from mature endosperm of *Passiflora foetida* 161–164
M.E. Mohamed, R.G.T. Hicks, D. Blakesley

Plant regeneration from cell suspension cultures of tetraploid tall fescue 165–168
D. Fournier, M. Ghesquiere, C. Poisson

Erratum

Effect of light on vanillin precursors formation by *in vitro* cultures of *Vanilla planifolia* 169–170
D. Havkin-Frenkel, A. Podstolski, D. Knorr

Volume 46 No. 3

Original research papers

Survival and growth of eastern white pine shoot apical meristems *in vitro* 171–178
B. Goldfarb, G.M. Howe, W.P. Hackett, O. Monteuuis

***In vitro* culture selection increases glyphosate tolerance in barley** 179–186
M. Concepción Escorial, H. Sixto, J.-M. García-Baudin, M.-C. Chueca

Histology of somatic embryogenesis from floral tissues cocoa 187–194
L. Alemanno, M. Berthouly, N. Michaux-Ferrière

Asymmetric protoplast fusion between sweet potato and its relatives, and plant regeneration 195–202
M.M. Belarmino, T. Abe, T. Sasahara

Cell commitment and *rolB* gene expression in the induction of root differentiation 203–209
A. Di Cola, P. Costantino, L. Spanò

Seed set in *Cichorium intybus* L. by pollination of flowers developed *in vitro* 211–218
C.I. Castaño, M.P. De Proft

High-frequency embryogenesis in *Brassica campestris* microspore culture 219–225
Y.-D. Guo, S. Pulli

Somatic embryogenesis and plant regeneration of pepper in liquid media 227–235
S. Buyukalaca, F. Mavituna

Transgenic sweet potato plants obtained by *Agrobacterium tumefaciens*-mediated transformation 237–244
M.I.C.S. Gama, R.P. Leite Jr., A.R. Cordeiro, D.J. Cantliffe

Effect of genotype, explant and medium on *in vitro* regeneration of red pepper 245–250
T. Christopher, M.V. Rajam

The inheritance of organogenic response in melon 251–256
R.V. Molina, F. Nuez

Effect of CO_2 and light on survival and growth of rice regenerants grown *in vitro* on sugar-free medium 257–264
Y. Seko, M. Nishimura

Research notes

Micropropagation of *Prunus mume* 265–267
H. Harada, Y. Murai

Micropropagation of *Gmelina arborea* 269–271
V.R. Kannan, Y.T. Jasrai

Instructions to Authors 273–275

Volume Contents 277–279
